

# Artisan's Asylum Corporate Associates Program

Artisan's Asylum Corporate Associates range from start-ups to established pillars of the economy who value the exceptional individuals that power their organizations. Offering access to the Artisan's Asylum facility as a benefit to their members and employees sets organizations apart in their support of art, creativity and exploration. In addition to shop access, this program includes private training and testing events to get teams up and running. Corporate Associates receive preferred scheduling and pricing opportunities and access to exclusive events. The program is an exciting way for groups to explore new tools and technologies in a space dedicated to innovation, exploration and education.

---

### ***For an annual fee, this program offers:***

- Access to flexible shop packages
- Access to private training and testing events
- Preferred pricing for custom team-building events
- Discounts on additional services

### ***Private Training and Testing Events***

Certification is required for the use of tools in our shops. To make it easy for scheduling and to get your employees started, we offer private training and testing. Get the training you need when you need it by focusing on the skills most in demand.

### ***Facility Access - Shop Pass Packages***

Shop passes allow your members or employees access to all the fabrication facilities and common areas of the Artisan's Asylum during staffed hours. Shops include:

- Digital Fabrication
- Jewelry Studio
- Wood Shop
- Metalworking
- Welding
- Metal Casting
- Screen Printing
- Electronics and Robotics
- CNC Fabrication
- Computer Lab

Available in 10, 20, or 50 pass packages, shop passes are valid for the month in which they are issued.

### ***Preferred Pricing for Custom Team Building Events***

Our Corporate Associates receive preferred pricing on custom corporate team-building events. Offered as single or multi-day workshops, topics may include:

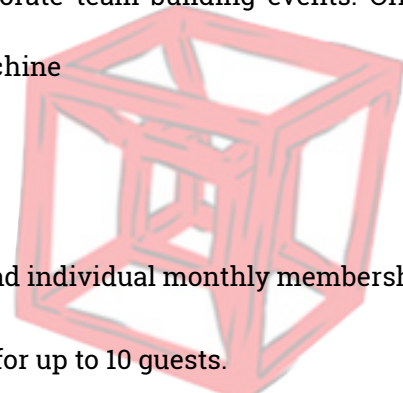

- Laser Cutting: Design and Fabrication
- Build Your own Synthesizer
- EL Wire
- Watercolor
- Sculptural Metalworking
- DIY Kinetic Flying Machine
- Chainmaille
- Figure Drawing
- Working with Arduino

### ***Discounts on Additional Services***

Participating associates qualify for 10% off of our regular class rates and individual monthly membership fees.

### ***Private Tour***

Our Corporate Associates enjoy one private tour\* scheduled annually for up to 10 guests.
